- Exporting Activity History 2

Forensic Activity History

The Activity History page helps you understand the actions performed on entities in the Cloud Secure environment.

Examining Activity History Data

Click **Forensic** > **Activity History** to access the Activity History page. The data available on this page describes:

- The time an entity was accessed including the year, month, day, and time of the last access.
- The user that accessed the entity with a link to the User Details.
- The activity the user performed:
  - Create
  - Read
  - Read Metadata
  - Copy
  - Delete
  - Write
- The path to the entity with a link to the Entity Detail Data
- The entity type:
  - Stream
  - File
  - Directory
  - Symbolic Link
  - Other Type
- The location (IP address) from which the activity was performed.

Filtering Forensic Activity History Data

You can filter Forensic Activity History data by the following:

- The Activity type:
  - Created
  - Read
  - Read Metadata

    - Copied
    - Deleted
    - Write
- Entity type:
    - Stream
    - File
    - Directory
    - Symbolic Link
    - Other Type
- Location that the entity was accessed from
- Path of the entity
- Time the activity occurred
- User performing the activity

Exporting Activity History

You can export the activity history to a .CSV file by clicking the *Export* button above the Activity History table. Note that only the top 10,000 records are exported.
