Getting Started with Cloud Secure 1

Getting Started with Cloud Secure

There are configuration tasks that need to be completed before you can start using Cloud Secure to monitor user activity.

The Cloud Secure system uses an agent to collect access data from storage systems and user information from Directory Services servers.

You need to configure the following before you can start collecting data:

Task	Related information
Configure an Agent	Agent Requirements Add Agent
Configure a User Directory Connector	Add User Directory Connector
Configure data collectors	Click Admin>Data Collectors Click the data collector you want to configure. See the Data Collector Vendor Reference section of the documentation.
Create Users Accounts	Manage User Accounts
